Enthusiastic and skilled **Web developer** with a strong foundation in **React.js, SocketIO, JavaScript, HTML, and CSS**, dedicated to **creating dynamic, responsive, and user-friendly interfaces**. Proficient in UI design principles and front-end development frameworks, with hands-on experience in **building scalable and maintainable web applications**. Recognized for strong **problem-solving skills** and ability to work **collaboratively** in a team-oriented, fast-paced environment

SKILLS

Front-End Development: ReactJS, AngularJS, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SocketIO, Next.js (Beginner)

State Management: Zustand, Redux, Context API

Back-End Development: RESTful APIs, Node.js, MongoDB, SQL

Development Tools: VS Code, Postman

Testing Tools: Browser-based debugging, manual testing

Version Control: GitHub

Soft Skills: Collaborative Development, Communication, problem-solving, attention to detail

WORK EXPERIENCE

Frontend Developer Intern **Dec 2024 - Present**
Heraizen Technology **Remote**

- Developing responsive and visually appealing user interfaces using **HTML, CSS, and Bootstrap** to enhance user experience.
- Collaborating with the team to design and implement interactive features using **AngularJS**, ensuring seamless functionality across projects.
- Actively learning** and applying **modern frontend development practices** to contribute effectively to real-world applications.

Frontend Developer Intern **May 2024 - Jul 2024**
CONNECTIA TECHNOLOGY **Mangaluru, India**

- Spearheaded the development and maintenance of responsive web interfaces using **ReactJS**, enhancing user experience and engagement across projects. Implemented **cross-browser compatibility** measures to ensure consistent performance.
- Optimized page load times and site performance through advanced JavaScript techniques and **caching** strategies, contributing to a **15% boost in website traffic**. Designed and implemented reusable components with **ReactJS**, significantly enhancing **data flow** and reducing development time for new features by 30%.
- Conducted rigorous testing and debugging of frontend code, **reducing user-reported bugs by 25%** and ensuring compliance with **semantic HTML** standards.

Web Development Intern **Dec 2022 - Dec 2023**
WEBFLOW COMMUNITY **Mangaluru, India**

- I had the opportunity to be a part of Webflow Community that is responsible for **developing and managing** our college website.
- Developed and maintained interactive web pages, enhancing the online presence of **Srinivas University**.
- Utilized **HTML, CSS, and JavaScript** to create responsive designs for optimal user experiences across devices. Streamlined the development process by creating reusable code snippets and **conversion tools**, accelerating project timelines.

EDUCATION

Bachelor of Technology in Computer Science & Engineering **Jan 2022 - Jan 2025**
Srinivas University, Mangaluru, Karnataka **GPA: 9+ CGPA**
PUC **Jun 2019 - Apr 2021**
Shyamili PU College **GPA: 97.8%**

PROJECTS

Whirl  **Jan 2025 - Present**

- Designing and developing a real-time chat application using **React.js, Node.js, Express.js**, and **MongoDB** to enable seamless user communication.
- Implementing key features such as **user authentication, message storage and group chat**, with plans to enhance functionality for a complete and interactive user experience.

DigiMart  **May 2024 - Jul 2024**

- Developed an e-commerce website for digital devices using **HTML, CSS, JavaScript, React.js, Express.js, Node.js, and MongoDB**, featuring a **user-friendly interface** and efficient backend.
- Implemented **secure user authentication** and seamless product browsing, enhancing the overall shopping experience

AngelPool  **May 2023 - Jun 2023**

- Built a job board platform using **HTML, CSS, JavaScript, Express.js, Node.js, and MongoDB**, with a responsive design connecting job seekers and employers.
- Created **robust server-side functionality** for job postings and applications, **ensuring secure and efficient data management**.
