Enthusiastic and skilled **Frontend Developer Trainee** with a strong foundation in **React.js, JavaScript, TypeScript, MUI, Tailwind CSS, Node.JS and MongoDB** dedicated to creating **dynamic, responsive, and user-friendly interfaces**. Hands-on experience working on **live projects**, applying UI design principles and front-end frameworks to build scalable and maintainable web applications. Recognized for **problem-solving abilities, quick learning**, and effective **collaboration** in fast-paced team environments.

SKILLS

Front-End Development: React.js, JavaScript (ES6+), Typescript, HTML5, CSS3, Tailwind CSS, MUI, Bootstrap, Angular

Back-End Development: RESTful APIs, Node.js, MongoDB, SQL, SocketIO

State Management: Zustand, Redux, Context API

Version Control: GitHub

Development Tools: VS Code, Postman, Vite

Soft Skills: Collaboration, team leadership, communication, problem-solving, attention to detail

WORK EXPERIENCE

Frontend Developer Trainee

Feb 2025 - Present

Code Matrix

Remote

- Contributing as a **Frontend Developer Trainee** at **Code Matrix**, working on a live **college dashboard platform** focused on **budget management**.
- Responsible for **building features from scratch** based on **Figma designs**, ensuring a **clean, responsive, and intuitive user interface** using **React, TypeScript**, and **Material UI**.
- Integrating **RESTful APIs** to connect frontend components with backend services, and **collaborating closely** with the **design and backend teams** to align technical implementation with business requirements.
- Managing the **Git repository**, maintaining clean commit history, and following **Agile development practices** to deliver incremental improvements.
- Addressing and **resolving issues** identified by **testers**, while adhering to **clean code principles** and best practices.
- Utilizing **Context API and Redux** for effective **state management**, and implementing **role-based access control** to ensure secure and personalized user experiences.
- Continuously **learning** and adapting to new technologies to enhance the quality and maintainability of production-level applications.

Frontend Developer Intern

May 2024 - Jul 2024

CONNECTIA TECHNOLOGY

Mangaluru, India

- Spearheaded the development and maintenance of responsive **web interfaces** using **React.js** and **JavaScript**, enhancing **user engagement** across projects.
- Designed and implemented reusable components with **React.js**, significantly enhancing data flow and reducing **development time** for new features by **30%**.
- Conducted rigorous **testing and debugging** of frontend code, reducing **user-reported bugs** by **25%** and ensuring compliance with **semantic HTML standards**.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Jan 2022 - Jan 2025

Srinivas University, Mangaluru, Karnataka

GPA: 9.12

PUC

Jun 2019 - Apr 2021

Shyamili PU College

GPA: 97.8%

PROJECTS

Whirl

Jan 2025 - Present

- Designing and developing a **real-time chat application** using **React.js, SocketIO, Node.js, Express.js**, and **MongoDB** to enable seamless **user communication**.
- Implementing key features such as **user authentication, message storage**, and **group chat**, with plans to enhance functionality for a complete and **interactive user experience**.

DigiMart

May 2024 - Jul 2024

- Developed an **e-commerce website** for digital devices using **HTML, CSS, JavaScript, React.js, Express.js, Node.js**, and **MongoDB**, featuring a **user-friendly interface** and efficient backend.
- Implemented secure **user authentication** and seamless product browsing, enhancing the overall **shopping experience**.

AngelPool

May 2023 - Jun 2023

- Built a **job board platform** using **HTML, CSS, JavaScript, Express.js, Node.js**, and **MongoDB**, with a responsive design connecting **job seekers and employers**.
- Created robust **server-side functionality** for job postings and applications, ensuring secure and efficient **data management**.
